Trivia

- He is named after and created in tribute to the late comedian Robin Williams, who was a fan of the *Warcraft* series among other video games.[1][2]
- Robin's quotes and status as a djinn are a reference to Genie from Aladdin, one of Robin Williams's most beloved roles. The quotes are spoken by Genie during a scene in the film, where he explains that his "phenomenal cosmic powers" are balanced by his "itty bitty living space" inside the lamp.[3]
