## Religious Composition by Country, 2010-2050

### Estimated religious composition of 198 countries and territories for 2010 to 2050

Even though 2020 is now in the past, figures for that year (and all future years) are demographic projections based on 2010 baseline estimates. Pew Research Center is currently working on new global estimates of the size of religious groups for 2020, based on hundreds of sources of data, including censuses that were delayed because of the pandemic. This table does not yet reflect new estimates for 2020. See "[The Future of World Religions: Population Growth Projections, 2010-2050](#)" for details. You can also [download the data](#).

**ABOUT PEW RESEARCH CENTER** Pew Research Center is a nonpartisan, nonadvocacy fact tank that informs the public about the issues, attitudes and trends shaping the world. It does not take policy positions. The Center conducts public opinion polling, demographic research, computational social science research and other data-driven research. Pew Research Center is a subsidiary of [The Pew Charitable Trusts](#), its primary funder.
